

RFP#2024-04WFS

Questions #3

1. When trying to complete the form 1295 online, it will not allow us to save/print the document without a contract number. Should this form be included now or is it just a reference for a document required at contract execution? This is referenced on pages 1, 24 and 25 of the attached Proposal packet.

Answer: You can use the RFP# as the contract number – this should allow you to submit the form online.

2. Please confirm there is no summer school, and the facility will be able to be worked in unencumbered.

Answer: Newman will ensure that all summer school activities take place in areas of the facility that will not impede upon the work related to the installation of the fire sprinkler system.

3. Please confirm when staff and students return in the fall for classes.

Answer: For the fall semester, teachers will be present on the campus starting August 2nd. Students will be present starting August 13th.

4. Please confirm if the school maintenance staff will relocate furniture within rooms as required for work to take place. If not, these costs will need to be incorporated into our proposal.

Answer: Yes, Newman maintenance staff will relocate the furniture within rooms as required to facilitate the work related to the installation of the fire sprinkler system.
